Dear Madam/Sir,

My name is Sareth Saroeurn, a second-year student from PNC. After receiving the information which you are looking for Network Administrator for your company, I'm interested with your company, so I would like to apply for the position of an IT Support.

Best on my school projects such as Virtual Company I, Virtual Company II and Virtual Company III, I get a lot of experiences working as a team leader and find techniques to reach the good result of those projects. I could apply my soft skills such as time management, task management, problem solving, critical thinking, responsibility, note-taking, and communication on those projects. As for hard skills, I could apply some languages such as Microsoft Office (word, excel, PowerPoint), Microsoft SA, Linux Phone System camera security, Cisco, Operation System, Computer Architecture, Network Infrastructure Virtualization and Cloud Computing, and Mikrotik.

Beside school projects, I joined a lot of workshops such as leadership, internship/career, problem solving, etc. These workshops bring me to be a strong person. I can get them to apply into the different situations. Due to some tasks provided by teachers, I strongly believe that I can work for your company with this position (IT support).

I would be grateful for the opportunity to demonstrate my talent. I strongly believe I can work and improve your company. I hope my resume will be considered, and I am looking forward to hearing from you soon. Thank you for your time and consideration.

Best regards,

Sareth Saroeurn
